

Número de artículo: DMK8

Multi-dimmer externo - 5m

El cable atenuador DMK8 es una solución ideal para ajustar el brillo de las pantallas de Beetronics, sin depender de los botones de operación o el mando a distancia.

- ✓ Ajusta hasta 5 pantallas simultáneamente
- ✓ Ajusta el brillo de la retroiluminación de 1 a 100 %
- ✓ Rápido y fácil de instalar
- ✓ Compatible con todos los monitores Beetronics

Características generales

Fabricante	Beetronics
